

Cyberinfrastructure

for Humanities, Arts & Social Sciences | A Summer Institute
July 24-28, 2006 | International House Great Hall | UC San Diego

Schedule

Monday, July 24

AM: Introduction to Cyberinfrastructure

PM: Cyberservices

Tuesday, July 25

AM: High-Performance Computing & Storage

PM: Networks & Digitally Enabled Sensors

Wednesday, July 26

AM: Grid Computing

PM: Portals & Gateways

Thursday, July 27

AM: Knowledge & Semantic Systems

PM: Large Scale Data & Databases

Friday, July 28

AM: Visualization

PM: Virtual Research Environments

This hands-on workshop is designed to introduce humanists, artists and social scientists to common and emergent cyberinfrastructure tools and resources. Topics to be covered will relate to computing for humanities, arts and social sciences research. An introduction will also be provided to key concepts in Grid computing. While the Institute will target teams of faculty from their respective campuses, graduate students and post doctoral scholars are also encouraged to apply.
